2. Dezember 2015

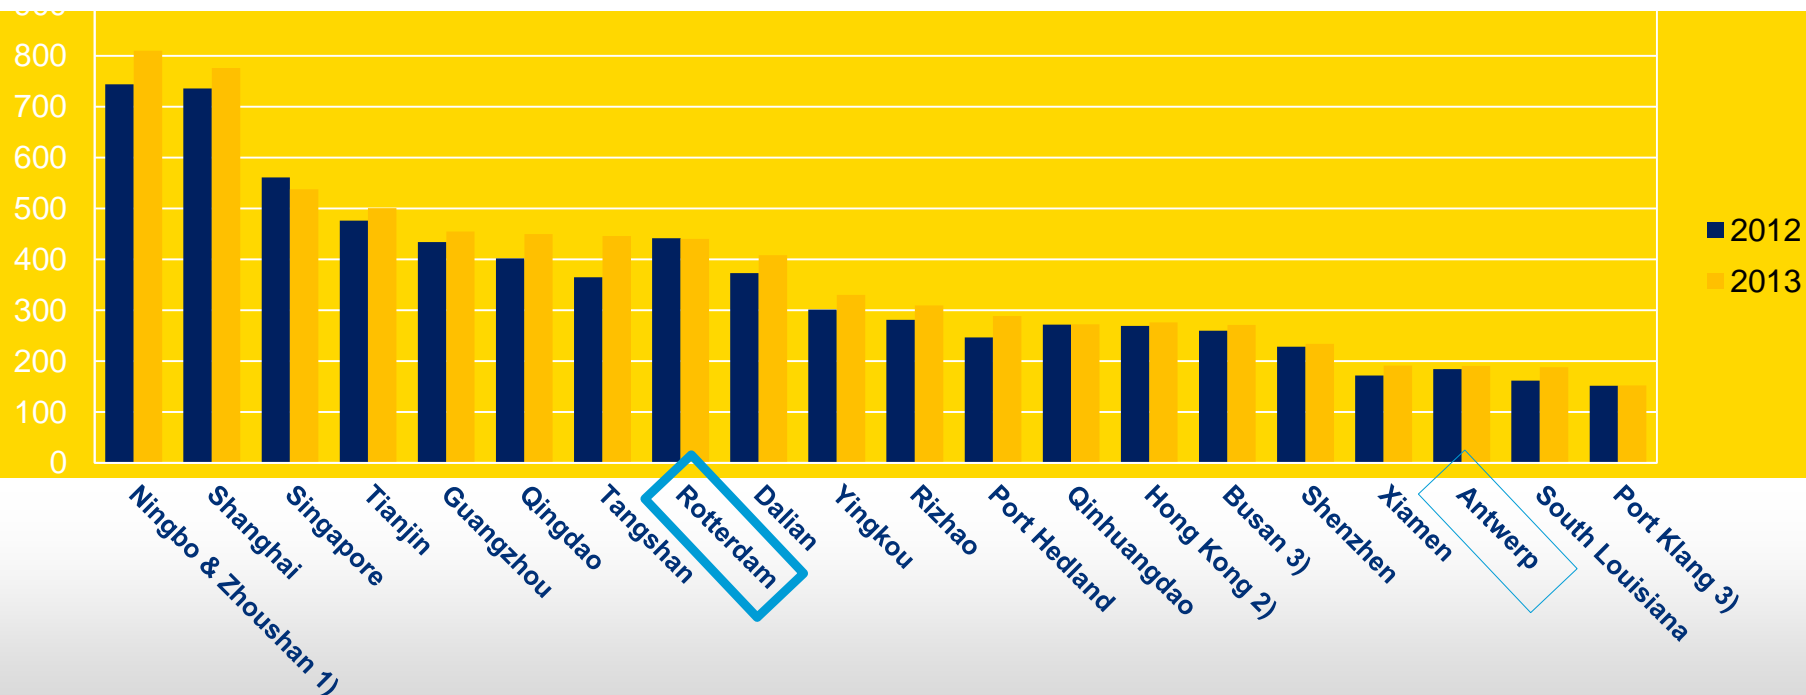

# The Facts of Europe's largest port

- Total surface: 12,500 ha
- Depth 24 meter
- 80 terminals
- 9 power plants
- 8<sup>th</sup> port in the world
- 3,000 companies
- 180.000 employees
- 70.5 km quay length

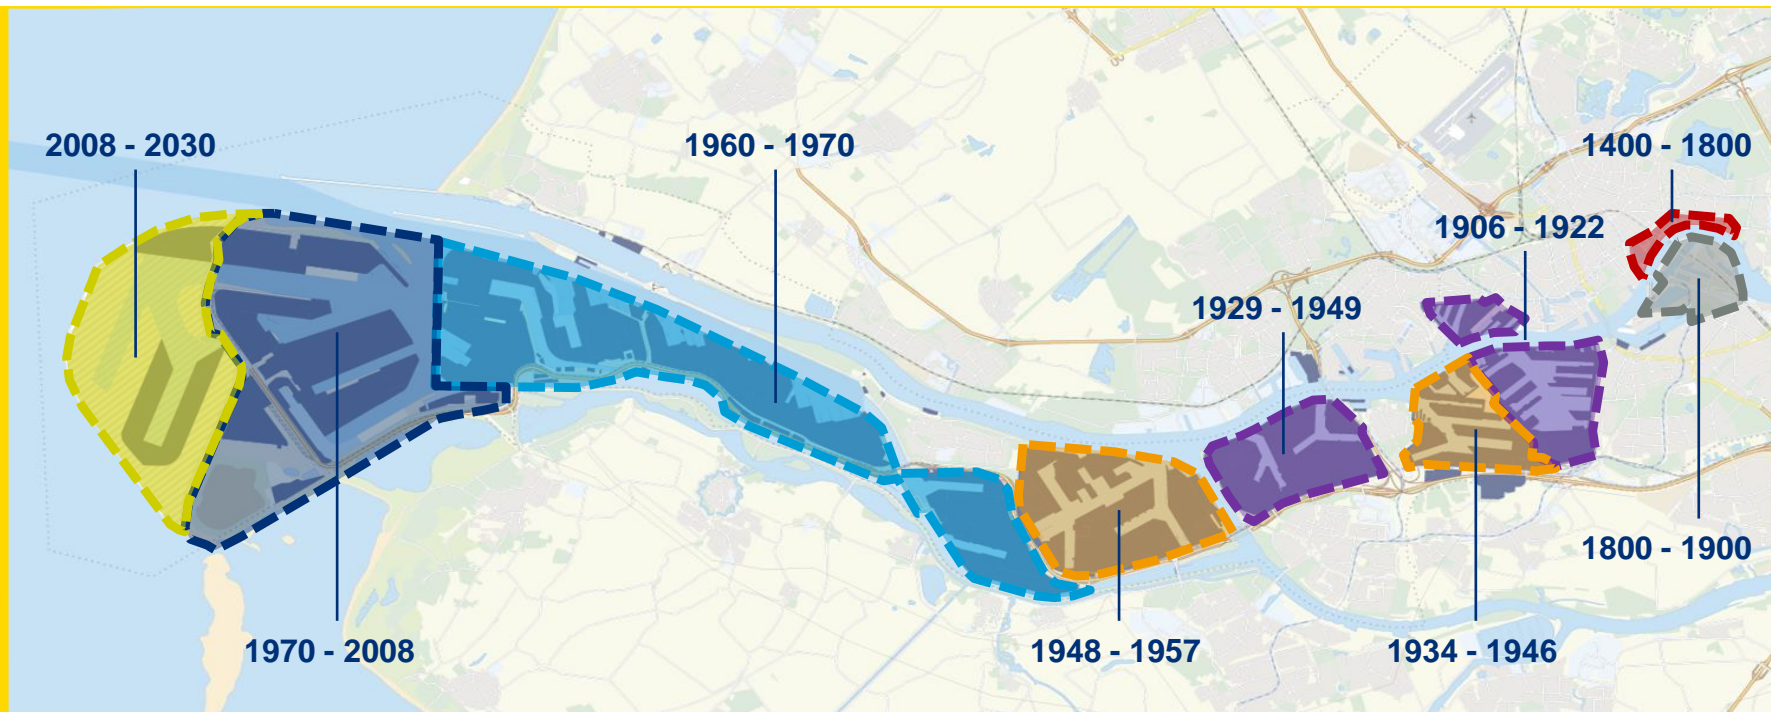

# Port of Rotterdam, Europe's largest port by far

1) Port combined in 2006 ; 2) Incl. river trade ; 3) Converted from freight ton to metric ton and all China ports incl. domestic- and river trade

# A port with a long history

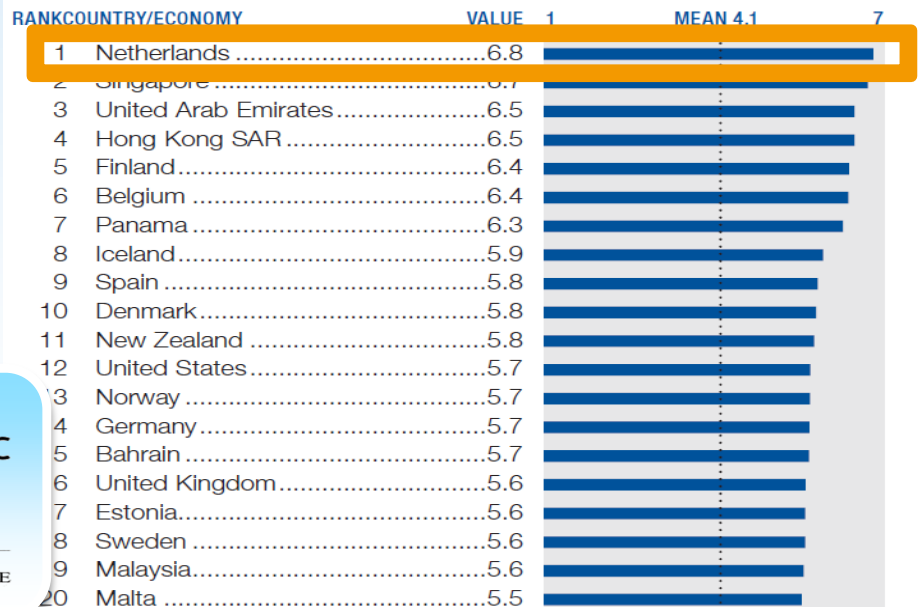

# 1. ...recognized globally for quality port infrastructure

In the Global Competitiveness Report, a leading study of the competitive strength of various countries conducted by the World Economic Forum, the Netherlands ranks 1 worldwide

## 2.04 Quality of port infrastructure

In your country, how would you assess the quality of seaports? (For landlocked countries, the worst in the world; 7 = extensive and efficient—among the best in the world)

2014-15 Global Competitiveness Report

# Hafengebiete

# Port Entrance

excellent “front door”

Water depth: 24 meter

1,000 m

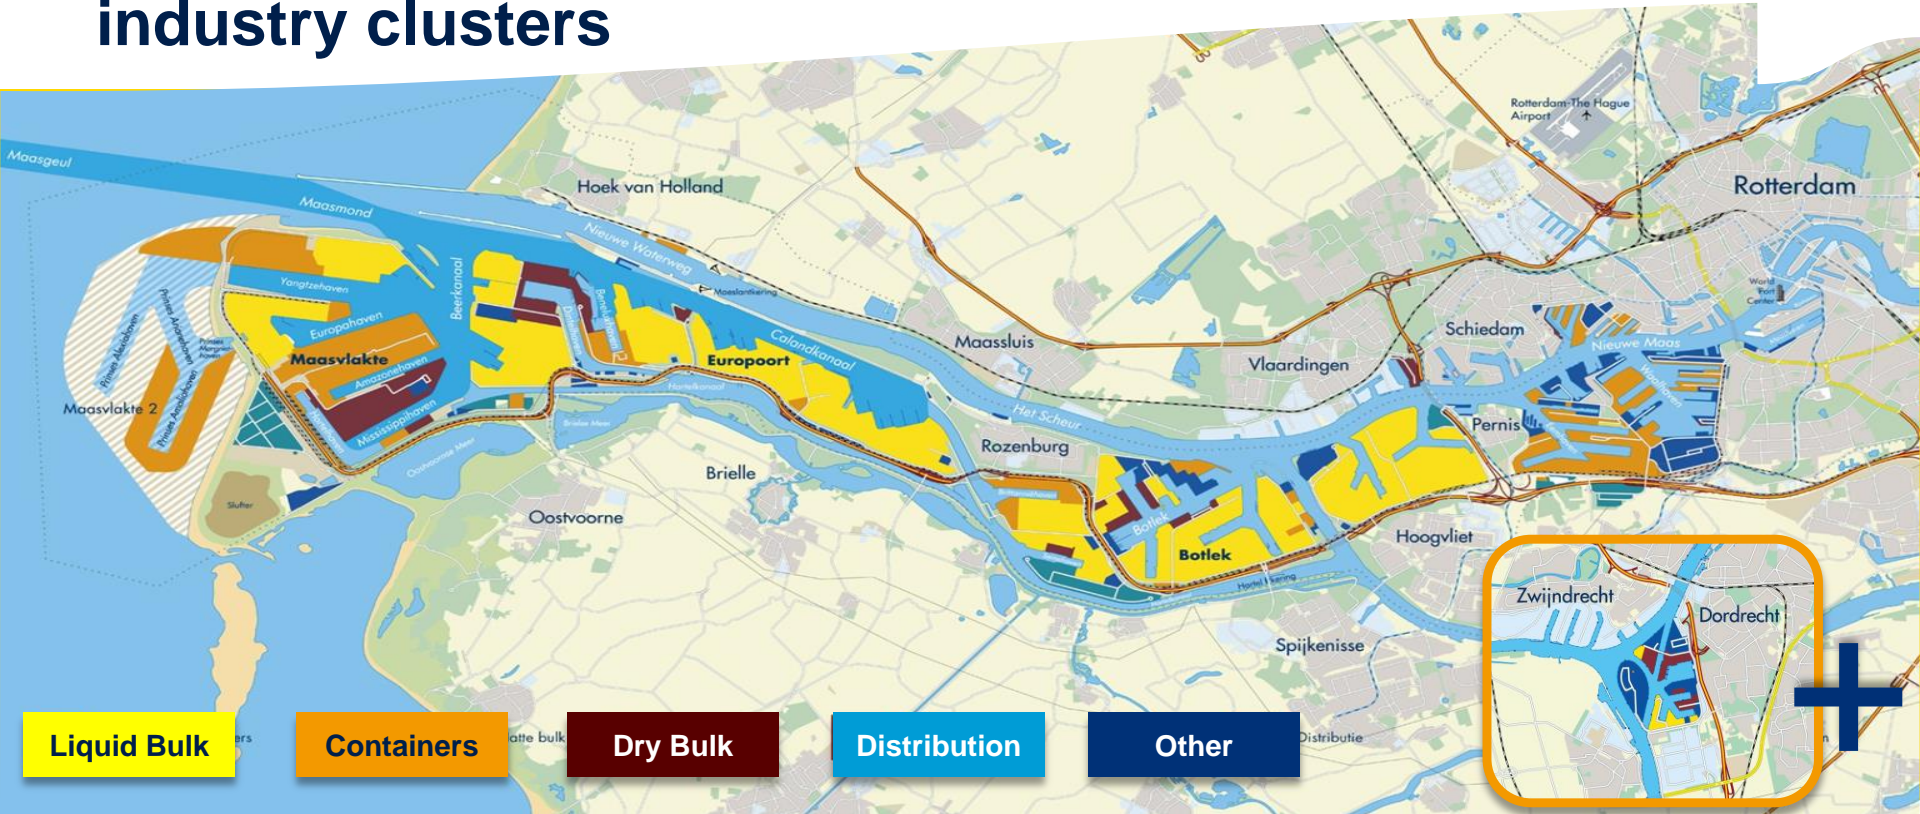

...and excellent “back door”...

## Became Europe's biggest port and home to multiple industry clusters

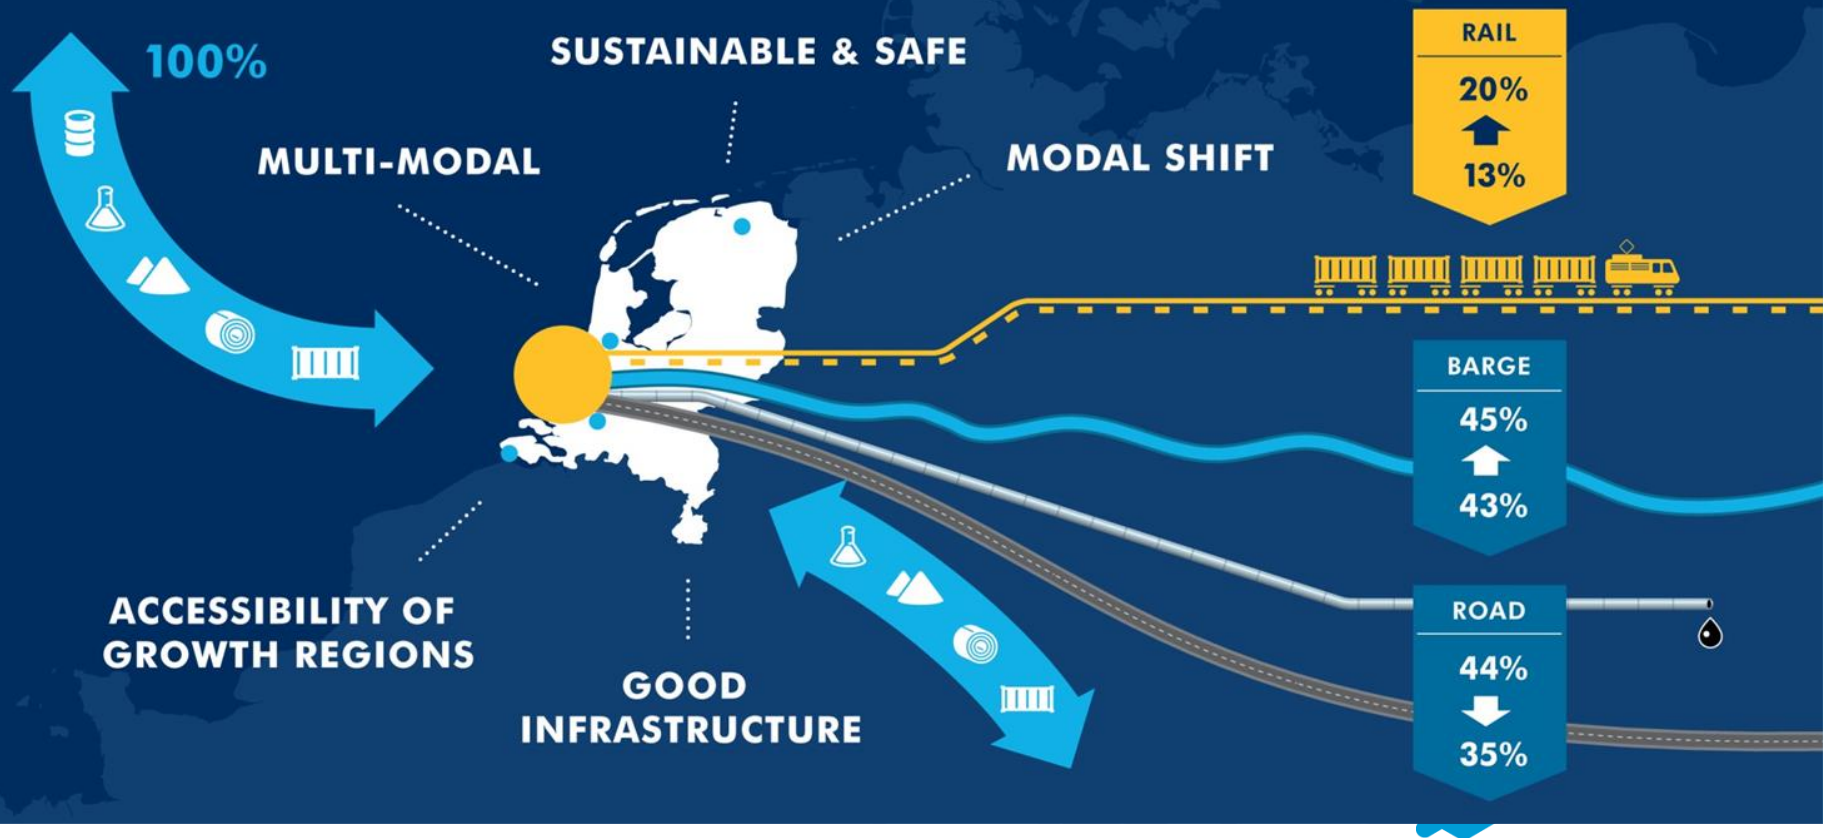

# Place to be : Rotterdam

# All modalities are indispensable

# Containermarket: trends and developments

- Growth in volume
- Overcapacity of ships
- Increased cooperation/ integration of services
- New additional terminal capacity in Europe

# APM Terminal Maasvlakte 2

# Rotterdam: Fast, flexible and reliable

Impact of rerouting containers:

- Minimal 24h transit advantage
- Intermodal connections gives flexibility to create an optimal supply chain

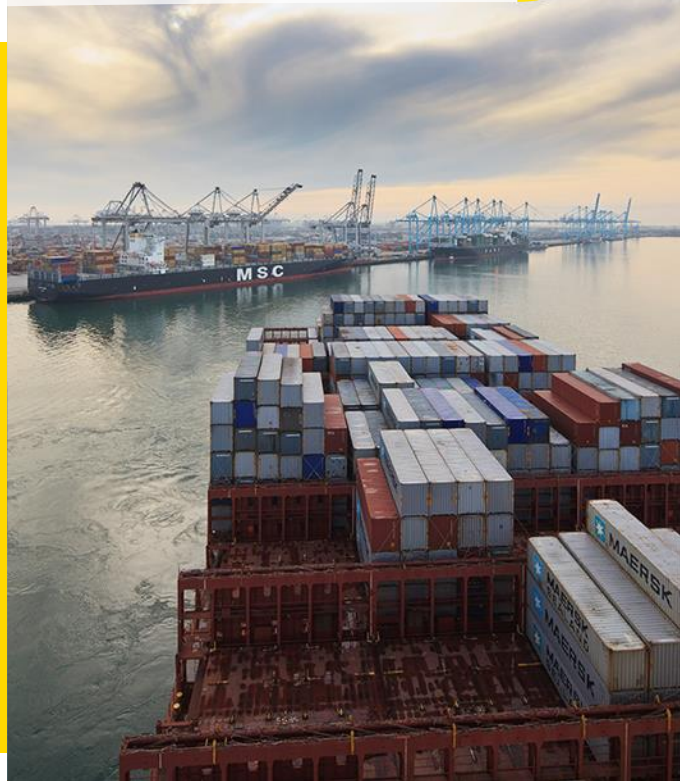

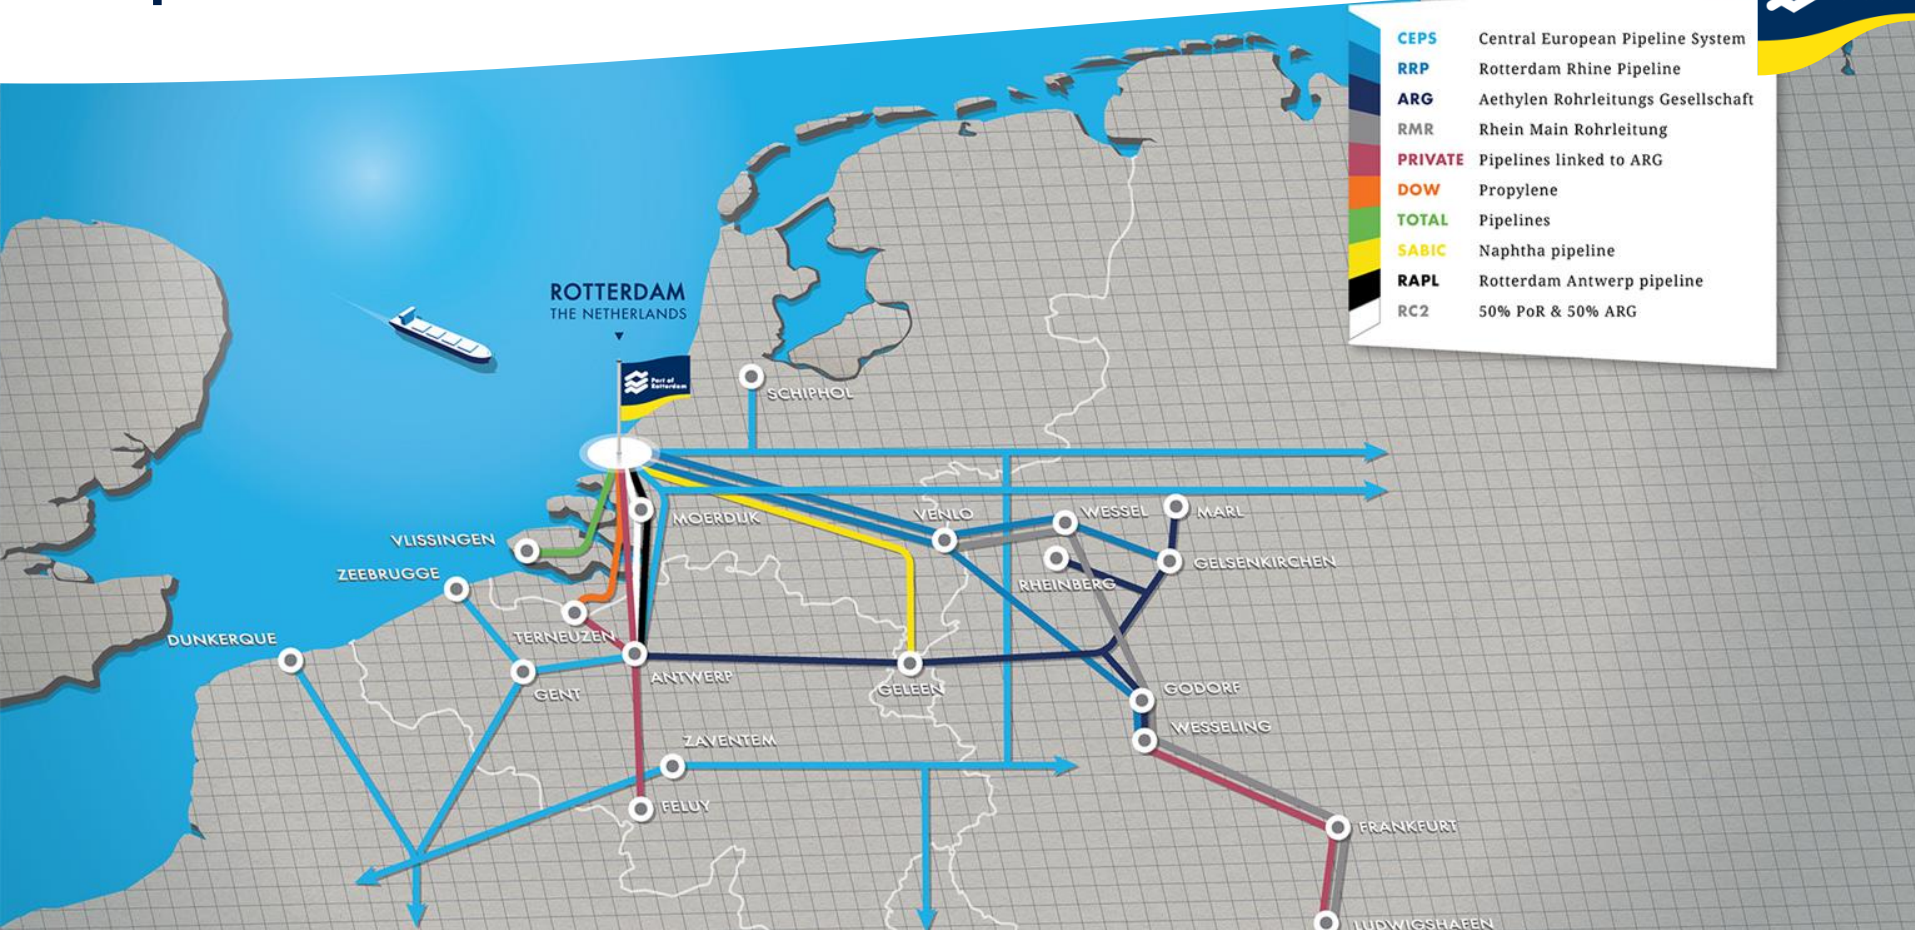

# Containers: strengthening of competitive position

Accommodate and stimulate growth by:

- Exchange of containers among terminals: CER
- Terminals become operational RWG and APMT MV2, investments in ECT, CT Alblasserdam
- Stimulate transshipment and 2nd call deepsea
- Inland shipping: development of NextLogic scheduling tool, among others
- Growing Rail connectivity
