

ÖVG Masterplan Güterverkehr

Logistical Backbone 4 Europe

WE ARE

BELT & ROAD DATA

The Belt and Road Initiative is a visionary blueprint for global economic development today.

With reference to historic Silk Road, which changed the nature of international trade relations in antiquity, the Belt and Road Initiative offers a modern solution that promotes growth and development in the 21st century.

30% of the world's GDP

\$1.3 trillion: China's total spending on the Belt and Road Initiative by 2027

> 900 projects in over 65 countries

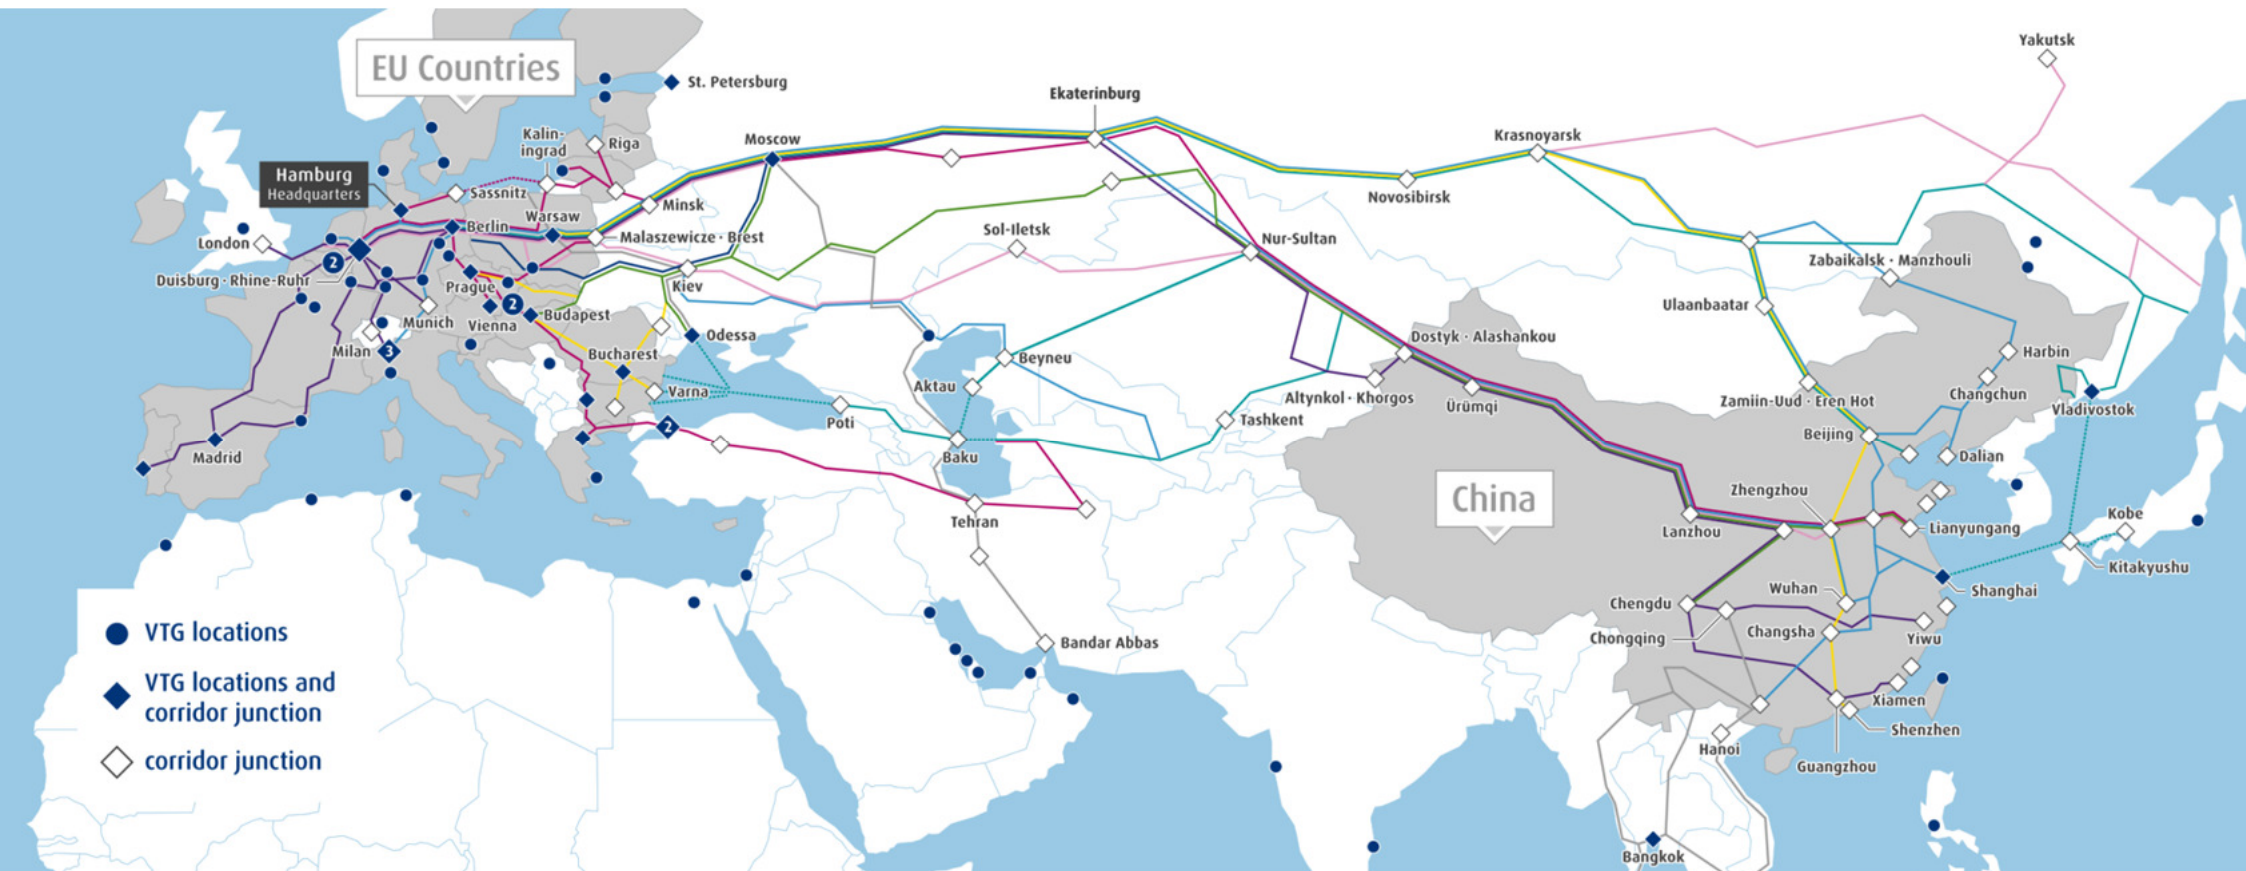

> 157 nations and int. organizations have signed up

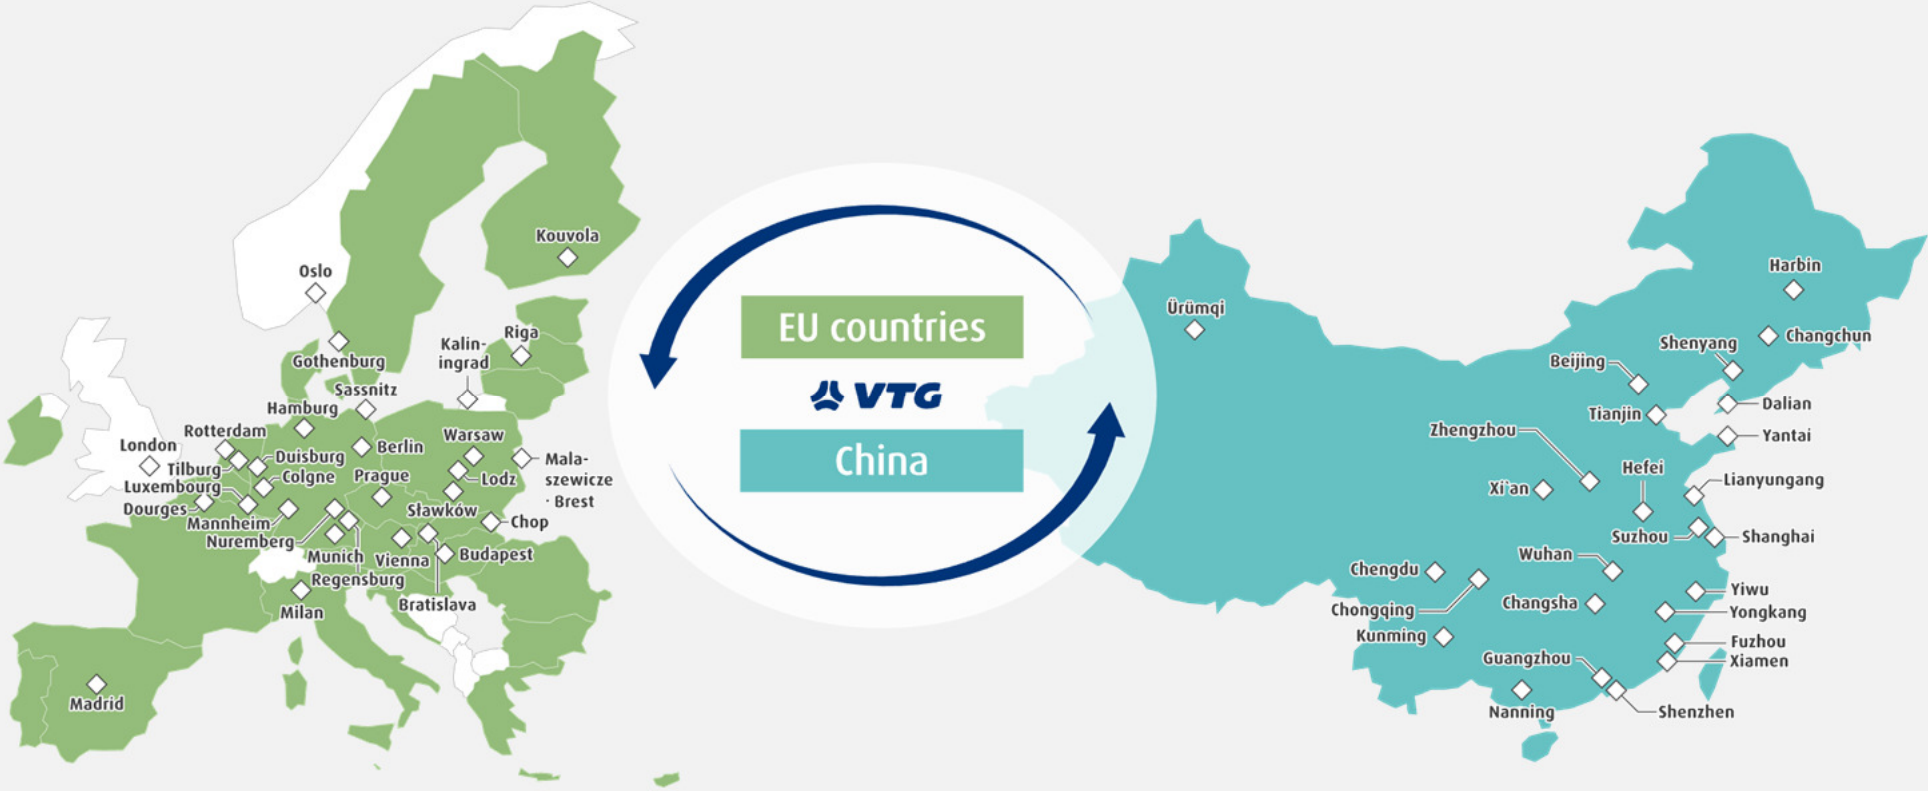

60% of the world's population

75% of silk road cargo runs through Duisburg
